Martinsville- Swimming, horseback riding, canoeing and archery are just a few of the fun activities that one lucky sixth grader will have a chance to experience this summer.

South Central Indiana REMC is looking for a sixth grade student to represent the cooperative at the Touchstone Energy Camp in Brookston, Indiana.

The Touchstone Energy Camp is held at Camp Tecumseh each year and SCI REMC covers the cost of a student to attend the camp. There are approximately 100 sixth grade students from around the state who will participate in this fun filled, educational experience from June 4 to the 7th.

To participate, you may download the application from the REMC website at www.sciremc.coop and click on community, youth programs. Fill out the essay question and return it with the application to Paula Sasse no later than 4 p.m. on April 11th.

Students are sponsored by 27 cooperatives from around the state for a week of fun and education. "It's a great educational opportunity and kids have fun while they learn about electricity, electrical safety, the environment and electric cooperatives," said Paula Sasse, Marketing Specialist for SCI REMC and SCI's coordinator of this event.

Linemen and cooperative volunteers from around the state donate their time to teach students about electricity and staying safe around power lines. The kids will also be involved in cool activities, playing games and meeting new friends.

South Central Indiana REMC is the largest distribution cooperative in the state of Indiana serving more than 33,000 members in Morgan, Monroe, Brown, Owen, and parts of Putnam, Clay and Johnson Counties.
