Clair Miles is the daughter of Jesse and Mandy Miles and the granddaughter of Julie Jennings who is the Chair of the event. “The goal of the event is to raise \$20,000 stated Jennings. “While we are currently short of this target, the live auction and continued financial support through on-line giving should allow us to meet our expectations. Right now we need your concern, your compassion, and your financial support.”

Recipients could be your neighbor, a friend, a family member or even yourself. Cancer patients come in all shapes and sizes with all types of financial or emotional needs. The only source of funding is through the generous support of businesses and individuals. Together we can make a difference.

The Quality of Life Foundation, was co-founded by Dr. William Dugan and Sara Edgerton, MA and is dedicated to improving the quality of life of those affected by Cancer through programs of research, education, and support.
